DETAILED ACTION

Response to Amendment

1. Amendment filed August 8, 2005 has been entered.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Applicant's arguments filed August 8, 2005, have been fully considered but they are not found persuasive.

Claim Rejections - 35 USC § 103

4. Claim 9 is rejected under 35 U.S.C. 103(a) as being unpatentable over Moyer et al. in view of Cormack and Chou et al.

The reason for the rejection has been set forth in the previous office action.

Applicants argue that the references do not teach claim limitation of "mutant human CFTR cDNA". However, the previous action clearly sets forth that the CFTR-GFP nucleic acid meets the limitations of the claims that the CFTR is a "mutant" CFTR. The term "mutant human CFTR cDNA coding region" is not defined by the specification nor the claims and thus does not exclude the CFTR-GFP of Moyer et al. CFTR is manipulated to create the CFTR-GFP construct and thus meets the claim limitations.

5. No claim is allowed.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
